About the Company

Founded in 2004, Alejandro Lopez, owner and operator of **ALM**, has been laying brick professionally for over 15 years. Masonry is a Lopez family tradition, handed down for generations from a long line of **professional and Master Masons**, learning the craft from his father and uncles.

ALM also has a **proven, award-winning bricklaying champion** that has competed against the very best bricklayers in the U.S.!

Today, **ALM** carries on the family tradition directly to the consumer or project that requires the **highest quality** with a “**master’s touch**” of generations.

(l-r, Alejandro and Martin Lopez)

Core Business

ALM specializes in commercial and residential construction and has been **highly successful in custom and high-end homes**. **ALM** is a favorite with area residential developers including Pulte Homebuilders and Fairway View Homebuilders.
